PROFILE

As an experienced Full Stack Developer (MERN), India, I am passionate about improving my coding skills and developing websites. With expertise in programming languages like HTML5, CSS, JavaScript, PHP, Node.js, and MERN development with GraphQL middleware, I aim to create innovative and high-quality websites and Softwares.

EDUCATION

Master's in Computer Application , Parul University	2021 - 2023
Bachelors's in Computer Application , Narmada College of Science and Commerce	2017 - 2021

TECHNOLOGY SKILLS

- Front-end: React JS, Next JS, HTML5, CSS, Material-UI, Tailwind CSS
- Back-end: Node.js, Express.js, GraphQL
- Database: MySQL, MongoDB, DynamoDB
- Tools: GitHub Desktop, Postman, VS Code
- Others: Git, RESTful API Design, Database Design and Querying, JavaScript (ES6+), Redux, Serverless (AWS Lambda)

WORK EXPERIENCE

Software Developer - Skywave Info Solutions Jun 2023 - Present

- Attending meetings and taking minutes
- Worked on the "Skywave Website" project using Next.js, Tailwind CSS, and Material-UI, delivering a fast and visually appealing website.
- Worked on the "Dating App" project as a backend developer, using Node.js, GraphQL, Express, Serverless, AWS Lambda, and DynamoDB.
- Contributed to the "CRM" project, implementing features with Laravel, MySQL, and Bootstrap CSS.

Software Developer - Technomark Solutions Jan 2023 - Jun 2023

- Attending meetings and taking minutes
- Implemented basic tasks for learning purposes, such as CRUD application using Node.js and MongoDB as the database.

Full Stack Development - CSI Software Apr 2022 - Aug 2022

- Technology Experience in PHP (Core), JQuery, JavaScript, Figma
- Worked on live projects
- Handled inner projects (2) using core PHP
- Research Development

PROJECTS

Skywave Website

- Developed websites using Next.js, Tailwind CSS, and Material-UI, providing an optimal user experience with a responsive design.

- Utilized the power of Next.js for server-side rendering and routing, enhancing website performance and SEO.
- Employed Tailwind CSS and Material-UI to create stunning and consistent UI components across the website.

Dating App (Backend Developer)

- Developed a Dating App backend using Node.js, GraphQL, Express, Serverless, AWS Lambda, and DynamoDB.
- Implemented user authentication, user profiles, and messaging features.
- Utilized AWS Lambda for serverless architecture to optimize scalability and cost efficiency.

CRM

- Worked on the CRM project using Laravel and MySQL for backend development.
- Utilized Tailwind CSS for frontend design and UI enhancements.

Amgranito

- Developed the company portfolio website "Amgranito."
- Website Link: <https://amgranito.ca/>
- Description: It is a portfolio of the company showcase their work and services.
- Technology Used: HTML5, CSS3, JavaScript

SKILLS

- Accept New Challenges
- RESTful API Design: Understanding of REST principles and experience in designing and building RESTful APIs using Express.js
- Database Design and Querying: Proficiency in designing database schemas and performing CRUD operations using MongoDB or other NoSQL databases
- Version Control: Proficient in using Git for source code version control, including branching, merging, and collaborating with team members using platforms like GitHub or GitLab
- JavaScript: Proficient in JavaScript programming, including modern ES6+ syntax and concepts
- Redux: Knowledge of Redux and its ecosystem for state management in React applications
- UI Frameworks: Familiarity with popular UI libraries and frameworks such as Material-UI, Bootstrap, or Tailwind CSS
- With Other Technology
